***Parks and Biodiversity Science Branch / Parks
Australia Division***

General Manager

Executive Level 2

Reference: 12150

Salary range \$101,991 - \$118,029

This position is located within the Australian National Botanic Gardens. The Gardens maintains a scientific collection of native plants which are displayed for the enjoyment and education of visitors and are used for research into plant classification, conservation and biology.

The General Manager will be required to direct and control the day-to-day operations of the Gardens to ensure a high standard of service delivery to visitors and the scientific community as well as numerous partners and stakeholders. In order to meet this requirement, the General Manager will require strong leadership and management skills, including the ability to manage financial and human resources, lead change and to develop and maintain productive relationships with external organisations.

This position will provide people with a background in management of botanic gardens and similar national or collecting organisations with a challenging but rewarding opportunity to further enhance their skills in one of the world's first all native gardens.

Applications must be received by 21 December 2009

Selection criteria can be obtained by contacting Mario Catanzariti on (02) 6250 9453 or via the internet at <http://www.environment.gov.au/jobs/opportunities/index.html>. Further information on the position can be obtained by contacting Dr Judy West on (02) 6250 9501 or at judy.west@environment.gov.au.

Please note: To be eligible for employment with the department, applicants must be Australian citizens.

No two people are the same and no two jobs are the same - we value diversity.
